We suggest #1 or #2 to put on rough surfaces such as cement, asphalt or paving stones. These courts have a gutter (in terra cotta) and a white bumper to always keep the discs sliding on plastic. This ensures a perfect gliding ability forever by keeping discs free of scratches. Without them, your discs will feel as if someone glued sandpaper under them. You can use wax, but it will not slide well like disks without scratches.

We suggest #3 to #6 for soft surfaces such as wood, plastic, carpet.

This applies to official-size courts (6' wide) and compact-size courts (5',4'or 3' wide).

**planet
SHUFFLEBOARD**

The **Planet Shuffleboard™**
gaming surface can be easily installed
on a wooden base in your back yard.
Expect hours and hours of fun with
friends and family !

1-If the frost move the platform during the winter or
if the ground is compacted over years, you simply
need to put it back level.

It is a lot easier than trying to put back level a
ciment Platform.

2- It keeps discs as new for a long period and assure
an outstanding sliding ability because discs do
not get scratched under.

3- No need to put beads on the court or to wax your
discs.

MAINTENANCE FREE COURT

Official size are #1 to #6

For all official courts #1 to #6, the playing area in green is 6' x 40'

Lines are painted white.

Courts #1 and #2 are recommended for hard surfaces such as cement, paver or asphalt. Courts

#3 to #6 are for soft surfaces such as wood, carpet, linoleum.

The plans below are similar in all versions . Only the dimensions change. These are compacted sizes.

In 5 "wide , the playing surface in green = 5' x 32'

In 4' wide , the playing surface in green = 4' x 27'

In 3' wide , the playing surface in green = 3' x 20'

#1,2 are for cement, asphalt or paver

#3,5 have yellow border all around

#4,6 have yellow border at both ends

Court#1 Rolls-Royce 10' x 52' \$4668 ca

Playing area = 6' x 40' = 240 sq. feet green

Shooting area = 6' x 6' both ends

+ 2' alley both sides = 280 sq.f. in Terra Cotta

+ 124 linear feet of white bumper ----->

Court#2 Cadillac 8' x 52' \$3776 ca

Playing area = 6' x 40' = 240 sq. feet green

Shooting area = 6' x 6' both ends
